

Context

Our dental clinics has provided a total of 2,161 free dental service in the month of June 2019, showing a slight increase for the first time since the beginning of this year in beneficiary numbers, due to a slight improvement in the security situation and to White Smile ability to secure additional support to the clinics, which was clearly reflected in beneficiary numbers the current pressure.

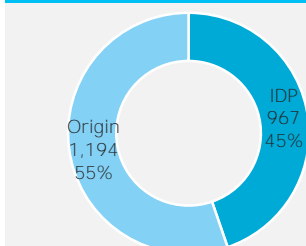

Awareness sessions were provided to 40 children, despite the priority focus on emergency response and the provision of emergency treatment.
